The Bank that Always Treats You Right.

**Maxwell****Why pay more than \$595?**

You say you want a really high grade automobile—a car that will compare favorably with your neighbor's—one that your family will enjoy. But you expect to pay well for such a car. Do you know that the Maxwell at \$595 offers you all of these advantages?

When you see it—ride in it—compare it—go over it carefully point by point—then you will realize that it offers you value equal to that found in most other cars selling for about one thousand dollars.

It's complete—electric starter and lights, demountable rims, one man top—all necessary accessories. And the engine is unusually durable and powerful. The Maxwell holds the world's endurance record, 22,000 miles without a stop of the engine. Then, too, there is economy—twenty miles per gallon of gasoline—7,000 to 10,000 miles per set of tires.

And this wonderful car sells for only \$595. Again we ask, why pay more?

Take a Vacation Every Day—  
In a Maxwell!
